

## In January 2019, it's time to choose a preschool class

In January 2019, you will be getting an invitation to choose a preschool class. The invitation has a link to the on-line service (e-tjänsten) on the Östersund Municipal website.

The online service opens on 14 January and continues until 27 January.

### You will need on-line identification (*e-legitimation*)

In order to confirm your identity, we will require you to have on-line identification (e-legitimation) or a mobile bank ID (mobilt bank-ID). Your bank of the Tax Authority can help you with this.

You can find additional information at [www.e-legitimation.se](http://www.e-legitimation.se).

Please note that you are required to give an e-mail address when using the on-line service.

One of the custodial parents makes the choice, and the other one later confirms it using the on-line service.

A placement notice will be sent by e-mail or mail at the end of February.

In the spring of 2019, the school where your child has been placed will invite you to an information meeting at the school.

### Will I get the school I/we chose?

We place students according to the wishes of the custodial parents or guardians to the extent possible. If the number of applicant to a municipal school exceeds the number of spaces, a choice is made on the basis of the relative distance between the child's home and the school. You can find additional information about the principles used in admitting students and how the concept of relative distance is interpreted by visiting our website, [www.ostersund.se/skolval](http://www.ostersund.se/skolval).

Independent schools in the municipality have their own rules for admission. Please contact the relevant independent school or schools for additional information.
